Dear Library Patrons,

We know that access to library materials, services, and programs is important to you. The Library Board and staff of the Beaver Dam Community Library, along with the City of Beaver Dam, are working on a plan to reopen the library that prioritizes the safety of the community and library staff. We have developed service and program models to continue to provide for your information, education, and entertainment needs while the building is closed.

Programs and Services

- [Mailbox Library Service](#) for checkout of library materials and home delivery through the US Postal Service
