

Library Board Encourages use of the Library Mailbox & Other Remote Services!

COVID-19 has had an unprecedented impact on libraries and the communities they serve. Libraries are an essential part of Wisconsin communities, so creating conditions for safe use remains critical.

As your advocate [Library Board members](#) take their role in maintaining the safety of library visitors and staff very seriously. While Library doors remain open, at this time of increased [COVID-19 community spread](#) we encourage use of our [Library Mailbox](#), [Digital](#), and [Remote Services](#).

As you can imagine finding ways to provide necessary services that the library is uniquely positioned to perform is difficult in a health crisis such as COVID. Please help us keep our community safer by using Library Remote Services.

When you visit, we ask that you keep your visits brief, wear a mask, social distance, wash hands, and avoid gathering in groups. Prolonged socially is strongly discouraged. In and out, grab and go, may seem like catchphrases but have very serious ramifications in terms of keeping you and library employees safer.

In past times of hardship, libraries have been the place people rely on to get them through. With this unprecedented health crisis, the Beaver Dam Community Library is needed now more than ever. Our library continues to assist the public with services they rely upon, virtually, digitally, and in-person. We have been here every step of the way to help support and enrich the lives of Beaver Dam residents. Your cooperation is necessary to ensure that the Library can continue to keep the facility doors open in as safe a way as possible.

Safety first, last, and always,

Library Board President, Jim Flynn
