NEWS RELEASE

City of Beaver Dam residents that receive City sponsored solid waste collection services, are advised that **Wednesday, November 18, 2020**, will be the last day for leaves, grass rakings, garden vines and stalks that may be placed in terrace areas at the street edge, in loose piles, for collection by Public Works personnel.

Please note the following guidelines:

- Yard waste is NOT allowed to be placed in the street or gutter. These materials must be placed curbside loose. Please do not place in any container.
- If possible, do not pile yard waste around or near trees, street light poles, or street sign posts. Piling yard waste around these items slows down the collection process.
- Leaves, rakings and garden debris must not be mixed with any other forms of waste such as brush or shrubbery cuttings. Brush pickup is done for 2020.
- Fruits, nuts and vegetables are not acceptable and should be disposed of as garbage.
- Violations will be rejected and must be removed from the street side within 24 hours of the violation notice.

The Public Works Yard Waste Drop-off Site, at 640 S. Center Street, is also available year-round for disposal of these and other yard waste materials by City Residents only. **No waste of any kind will be accepted from outside of the city limits or from any contractors.**

Questions should be directed to the Department of Public Works at 887-4635 or through the City's web site at www.cityofbeaverdam.com.

Dan Mulhern, Supervisor
